Luxury Hand-Crafted Leather Safes

Transform your premium safe into a masterpiece of elegance with our custom leather wrapping. Each piece, expertly handcrafted, blends traditional artistry with modern flair. The meticulously selected leather enhances the safe's beauty, while its rich texture and flawless finish add a touch of distinction. Beyond mere security, your safe becomes a striking display of style and grandeur. Our leather-clad safes, designed for those who value exquisite details, perfectly unite security with opulent design.

Safe Door Clearance

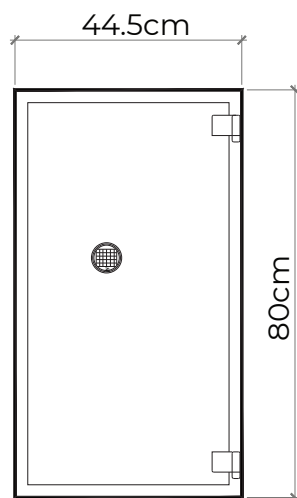

Our Minitreasure luxury safe is designed for seamless integration into wardrobes and cabinetry. For optimal functionality, ensure a **125-degree door opening** with the following clearance:

- **70 cm in front for unobstructed drawer movement**
- This opening angle allows to open the drawers fully.
- To ensure a hassle-free installation, we recommend our safe experts can make a site visit to discuss with your contractor or carpenter to determine the exact dimensions needed for your wardrobe construction.
- Or we are always happy to receive your contractor or carpenter to our showroom to see the safe physically and understand required space to open the drawers or access the safe fully.
- This guarantees a perfect fit and smooth operation once your safe arrives to your place.
